

Title	Climate Vulnerability Assessment Radiata Pine Results Report
Abstract	This asset is a report containing the results of the Radiata pine model produced by the Climate Vulnerability Assessment Project. It describes project's assessment of climate suitability for Radiata pine in NSW, both historically (1981-2010 baseline) and using future climate projections (2036-2065) for two emissions scenarios (RCP4.5 and RCP8.5). The report includes a description of the project and model, along with an analysis of findings and supporting maps.
