

Title	Large scale field demonstration on surface liming in contrast with deep ripping on a Yellow Chromosol
Alternative title(s)	Large scale farmlink 2
Abstract	The effect of surface liming, deep ripping and deep ripping + lime and deep ripping + organic amendment on a yellow chromosol were tested in a large scale replicated demonstration. The site had been cropped since 1991 and had applications of 2t/ha lime in 1994 and 2018. Test crops were oats in 2019 and canola in 2020. Field operations, crop development, crop yield, root distribution, soil chemistry (pH and nutrients).
