

Title	Impact on yield of spot form of net blotch in barley or yellow spot in wheat at various growth stages in varieties with different levels of genetic resistance.		
Abstract	Replicated field experiments on yield impact of spot form of net blotch in barley or yellow spot in wheat at various growth stages in varieties with different levels of genetic resistance. Data sets contain harvest yield data from 4 replicated field experiments conducted over two seasons on the effect of two leaf diseases on yield when infection occurred (inoculated) at different growth stages during the season in 8 varieties with different levels of genetic resistance.
