

<b>Title</b>	Climate Vulnerability Assessment Oriental Fruit Fly Data
<b>Abstract</b>	This asset is a dataset containing geospatial outputs from the oriental fruit fly model produced by the Climate Vulnerability Assessment Project. It contains the climate suitability for oriental fruit fly in NSW, both historically (1981-2010 baseline) and using future climate projections (2036-2065) for two emissions scenarios (RCP4.5 and RCP8.5), for each element of the model.
